

## Errata:

```
sudo docker run -i -t -p=25565:25565 minecraft/minecraft188
```

## Check the following

```
chmod +x watsonLocal.sh
```

```
cp ~/reflibs/spigot-1.1.8.jar ~/bluemix-minecraft/spigot-plugin-watson/
```

To enable Multiplayer  
copy the Minecraft\_2.1 into the server folder ~/bluemix-minecraft/spigot-plugin-watson  
Move the current "World" folder into "World-Backup"  
rename Minecraft\_2.1 to "World"

```
cf ic run --name watsonspigot -p 9085 registry.ng.bluemix.net/scheemalapati/watsonspigot
```

```
login to container with bash  
cf ic exec -it watsonspigot bash
```

---

Working commands:

```
curl -u "bacxxx-62xx-4585-ae29xxxxxxf6c925":"3TxxWxxxDhx4" -X POST --form  
file=@input/DialogTest.xml --form name=watson_dialog_sc_2  
"https://gateway.watsonplatform.net/dialog/api/v1/dialogs"
```

Command to get the dialogs

```
curl -u "baxxx9b-62xx1-45x-ae29-03xxxxxxc925":"3TxxWxxxhN4"  
https://gateway.watsonplatform.net/dialog/api/v1/dialogs
```

```
